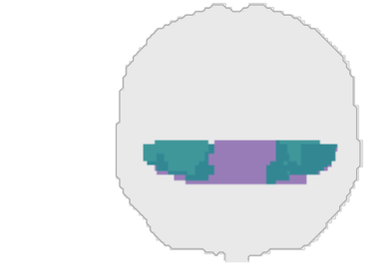
A

OFC regions and analysis logic



Coronal maximum projection

Independent OFC K=2 ROIs

- Medial/posterior-lateral OFC
- Central/anterior-lateral OFC

Within-probe RSA

Premeal cue patterns → Neural RDM ρ Odor-identity RDM

same = 0; different = 1

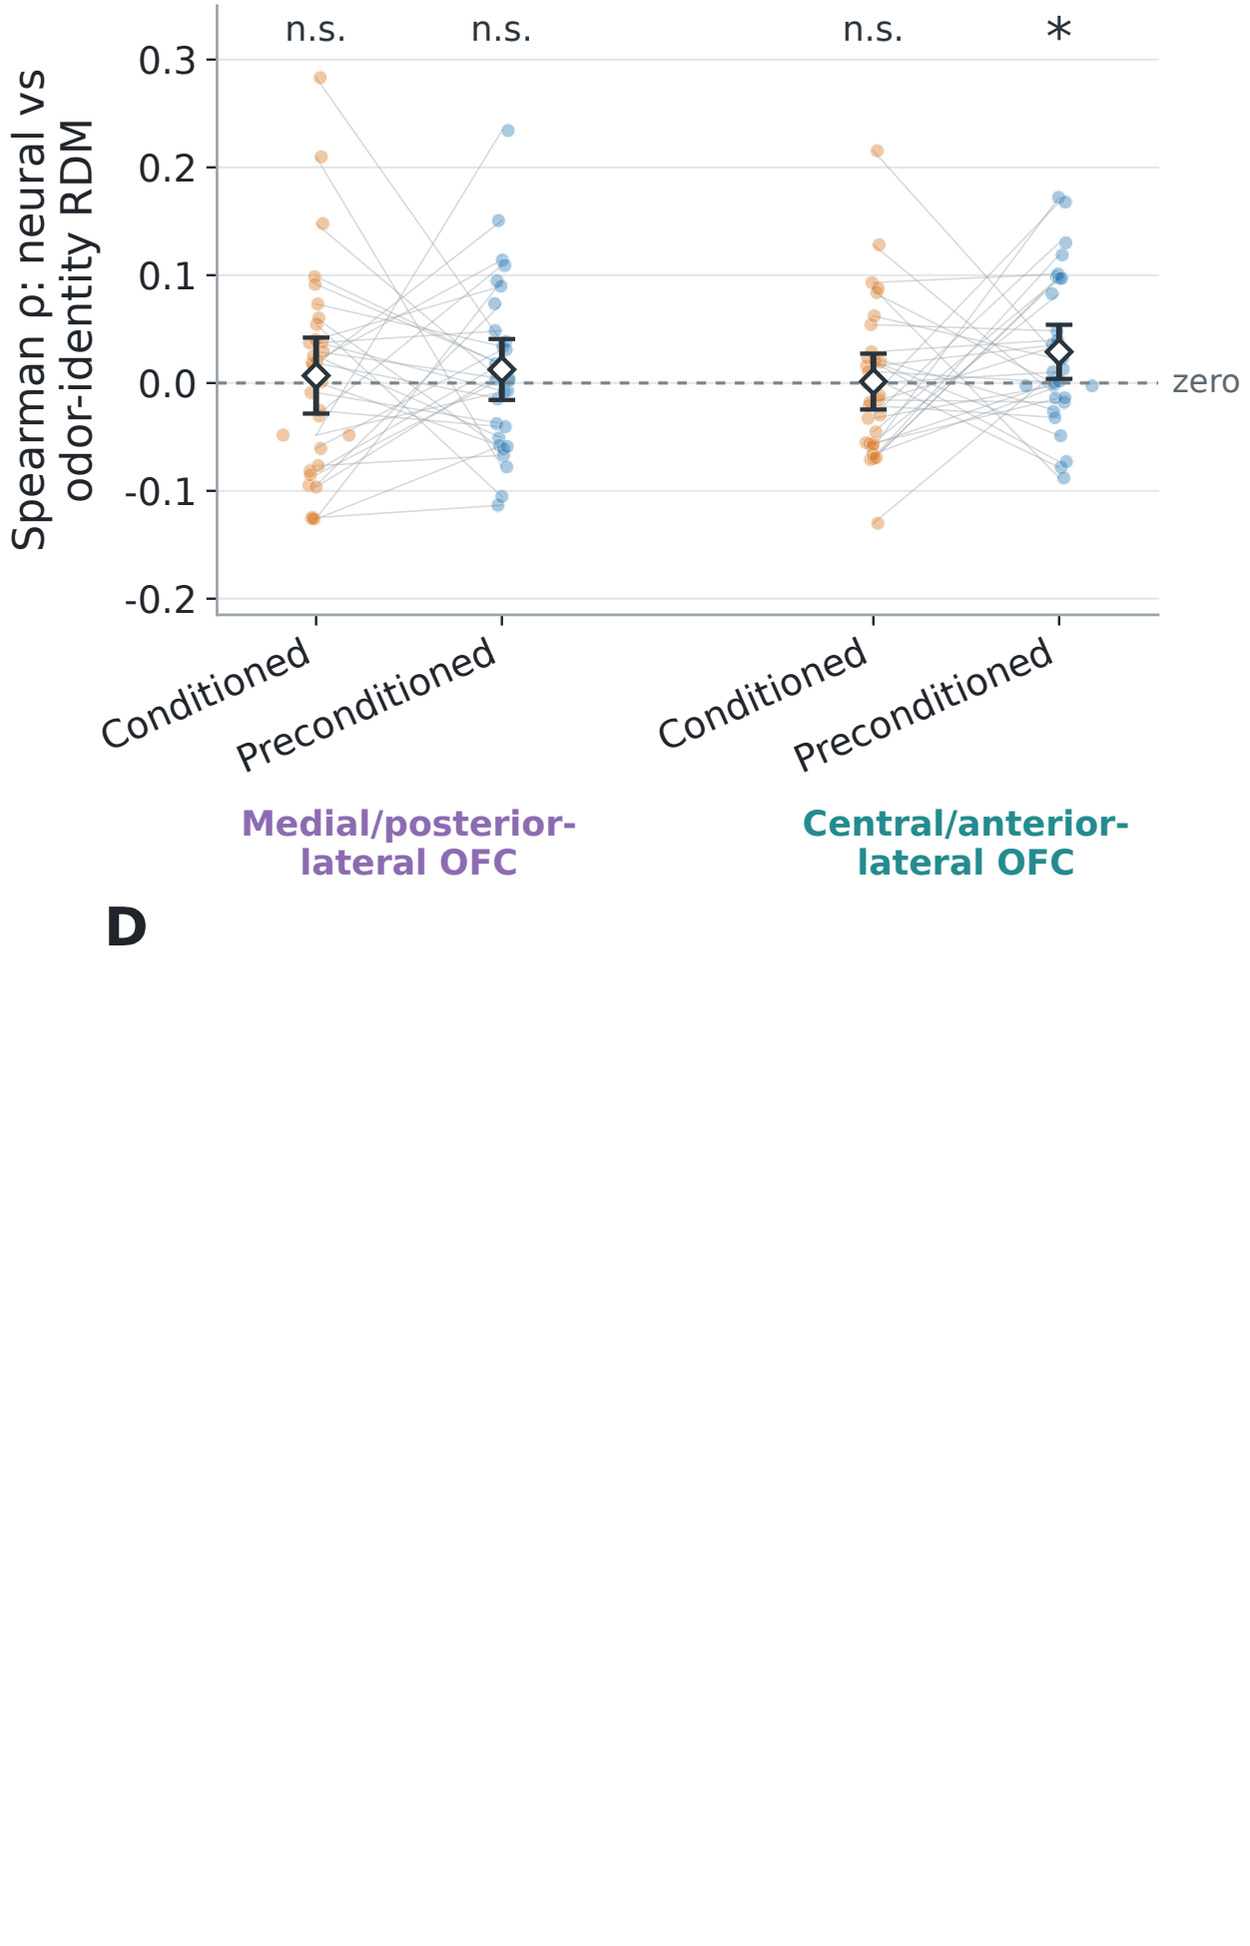
Cross-task decoding

Passive odor patterns → (train) Linear SVM → (test) Premeal cue odor identity

odor 1 vs odor 2

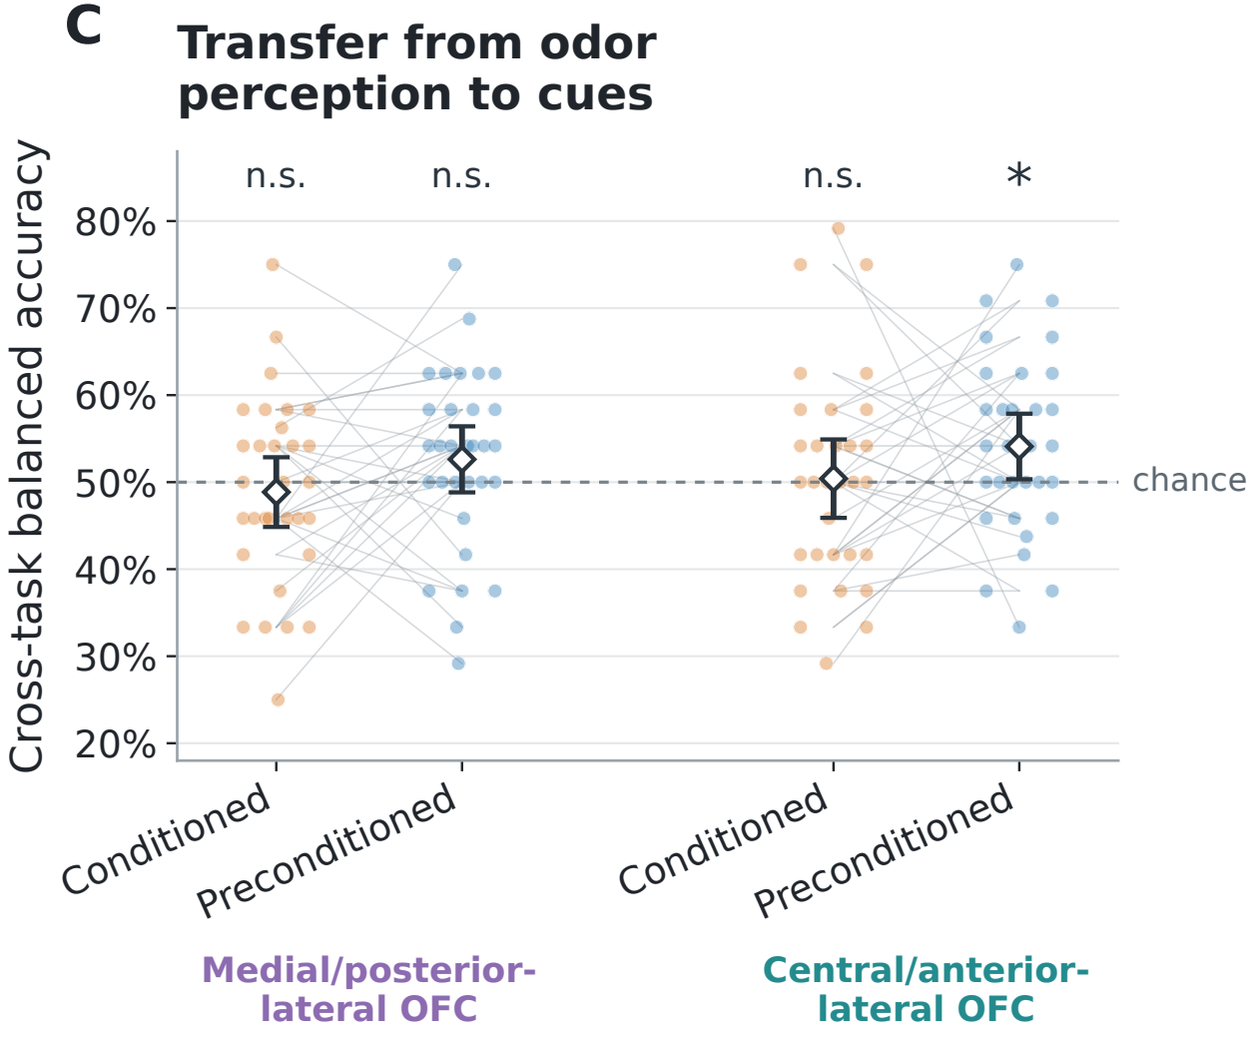
B

Odor identity within cue representations



C

Transfer from odor perception to cues



D
